

WEST SCRANTON

BOARD WILL NOT UNITE

DECIDES NOT TO JOIN WITH SCRANTON BOARD.

Members Favor the Continuance of the Local Body and May Change the Name at the Next Meeting. Franklin Engine Company Elects Officers—Death of a Former Resident—Entertainment and Social, Skating Party at Lake Scranton. Notes and Personals.

The board of trade met last night and discussed the proposed abolition of the street car transfer system, second-class city matters, the proposition to amalgamate with the central city board, and several other minor matters of local interest. It was reported that the work on the new spike factory has been commenced and will be pushed rapidly by the contractor. Secretary Oliver reported that an ordinance is on its way through council calling for an appropriation for a circular curb at South Main avenue and Washburn street, Jenkin Reese and B. G. Morgan were appointed a committee to push it along.

The matter of repairs at the Columbia Hose company house was again brought to the attention of the board, and it was the general opinion the matter is up to the chief. The health committee also came in for a rap, and one member said he thought the office was a needless expenditure, while another claims his small is now a day later than it was before the office was established. The traction company's proposition to abolish the transfer system was given some attention and a committee was appointed to act with any other committee in enforcing the law in the premises.

Common Councilman-elect William Gurrell, of the Fourteenth ward, was present and united with the board as an honorary member. The committee appointed at the last meeting to canvass the members, relative to their joining the Scranton board of trade, reported that seven names have been enrolled on the petition. The sentiment is not favorable to the disruption of the local organization.

Several of the members spoke on this matter, and it was decided to continue the organization, and the matter of changing the name will be considered at the next regular meeting. In

relation to this matter President Daniels said: "If continued at all, it must be either allow ourselves to be absorbed by the Scranton board and die a natural death, or change our name and die an ignominious death."

Mr. Gurrell reported that he has under way an ordinance for the paving and sewerage of Seventh street, between West Lackawanna avenue and Seventh street. He said that the property owners have signed for the improvement. The matter of second-class city legislation was aired somewhat and referred to the legislative committee with power to act.

DUNMORE DOINGS

WILL WE KNOW OUR FRIENDS IN HEAVEN?

Evangelist W. H. Williams Believes Most Emphatically That Every Human Soul Will Recognize Its Friends in the "Sweet Bye and Bye"—A Most Brilliant Sermon on Immortality Heard in the Methodist Church—Revival Services at Tripp Avenue Church—Other Notes.

Rev. W. H. Williams, the Drummer Evangelist, spoke last night at the Methodist church from the text, John 17-21; subject, "Will We Know Our Friends in Heaven?" He said in part: "Change is one of the allotments of Providence. Appearance and relation change, but nothing is completely destroyed. This old world is 5,000 miles thick and 25,000 miles around it, not one atom of matter more or less than when God made it and sent it spinning around the sun, thousands of years ago. This being true of particles of matter, we think we can claim that death does not end all.

"Heaven would not have no antidote for the soul in bereavement without the future meeting. We sing, 'Earth has no sorrow heaven cannot heal.' Have you buried a hope, I think not. Robert Ingersoll did not bury his. He said at the grave of his brother, 'Hope was the sound like the rustling of a wing.' "Have we been singing a miserable farce in these hymns, 'I'll Meet You in the City,' and others of like character. These songs were written and put in books to sell. Men have made a business of the sentiment and find in every breast of a home beyond the grave.

"John says: 'I saw 144,000.' How would you count this number? One at a time? I think he further says: 'I saw the small and great stand before God.' Yes, the children are all there. Hell has never heard the wall of one child's voice. Heaven has them all. If not, we men had better give it up, for we will never get there.

"Mother, put away the little shoes and dresses with a song of triumph, and never say again, 'I have lost my children.' Not one is lost, for we know where they are, therefore they are not lost.

"We are not only to know our loved one, but will know those who we have helped to a better life. They that go to heaven, bearing the precious seed, will doubtless come again rejoicing, bringing their sheaves with them.

"There are two worlds. The dead are just out of sight. Our friends are just around the corner of Nature. We dwell in the suburbs of the city; they are in the city chamber.

"We are under the clouds, they are in the radiance of heaven. We inhabit miniature tabernacles, which are built right under the eaves of God's everlasting palaces.

"To know, friend, is essential to the unraveling of the mystery of this life. What I do now thou shalt not know, but thou shalt know hereafter, says Jesus. Go weeping ones, look, your crowns are gathering luster. Your harps are being tuned to deeper and sweeter notes of joy."

Miss Hall sang again, in keeping with Mr. Williams' subject. The subject for the meeting tonight will be "Doubting Thomas."

TOLD IN BRIEF.

The revival services at the Tripp Avenue Christian church, which were begun on Sunday evening by Rev. A. P. Cobb, of Decatur, Ill., are progressing finely. COST OF SICKNESS.

What a large proportion of the time of the well is necessarily devoted to and lost in the care of the sick.

An army of Physicians, Nurses and Watchers, etc. One sick member of the family upsets the whole current of domestic affairs, and social and business interest suffers. Sleepless nights and anxious days tend to undermine the health of those who are well.

The direct cost of sickness is an item impossible to estimate; even the direct cost—could it be computed—would be something appalling. Health is maintained by resorting to the use of Warner's Safe Cure just as soon as the liver shows signs of torpidity or the kidneys give suspicion of weakness. This great Kidney and Liver Specific relieves upon the verdict of the world after 21 years trial.
